**I'm currently improving my full-stack software engineer skills. Gaining a firmer understanding of multiple different programming languages and tools, including  HTML, CSS,JavaScript,Node.js/Express,React, Python, Flask,SQL, Git/Github, WSL Ubuntu, Jasmine and Jest Testing, and Bootstrap.**

## Top Skills

- **Data Structures / Docs** - Adept at creating and reorganizing data structures so that they are both clear and efficient. In addition to creating legible docs that make sense.
- **Debug / Code Testing** - Able to debug and test code using programs like Jasmine, Jest,  and Unittest.
- **Problem Solving** – Adaptive in new work environments and resourceful enough to utilize my programming knowledge to create a workable solution, even if that includes hours of research.
- **Constantly Improving** – The tech industry is constantly evolving at a rapid pace. As a result, I constantly look for ways to stay up to date on the new processes while improving my existing skills.

## Projects

**Personal**

Book Recommendation App (work in progress)      Website: https://find-my-book-list.herokuapp.com/
• A Python/Flask built app that will find and categorize books accurately
• Users take a short quiz to find their preferences and are then matched with books that best fits their book reading preferences.

## Work Experience

**Springboard**
*Student Software Engineer*                                                           02/2021-Present

• Sharpening my skills with Javascript, DOM Manipulation, Bash, HTML, CSS.
• Once complete: +800 hours of software engineering training while working on creating 4 in-depth capstone projects covering front-end, back-end, and full-stack web development.

**Kroger, Mckinney**
*Certified Pharmacy Technician*                                                     03/2019-Present

• Effectively communicates with the pharmacist, other technicians, and patient to quickly input prescription data, dispense, and release medications. All while ensuring that there have been no errors in the process.

**CVS, Frisco**
*Certified Pharmacy Technician*                                                     02/2017-11/2018
• Works with both patient and doctor to ensure that the patient gets the correct medication in a timely manner.

## Education

Completion Date: (11/2021), Springboard (coding Bootcamp)
